Who is in the bin?

Some of the skeleton animals from the zoo are hiding in the dustbin! Can you guess which one is in each?

Parts of the body

Can you draw a line from the word to the part of the body?

leg

foot

head

hand

arm

nose

Draw a skeleton

Try drawing your own big skeleton.
Use the grid to work out where all his bones are meant to be.

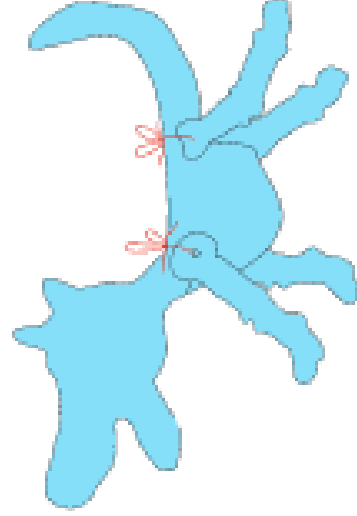

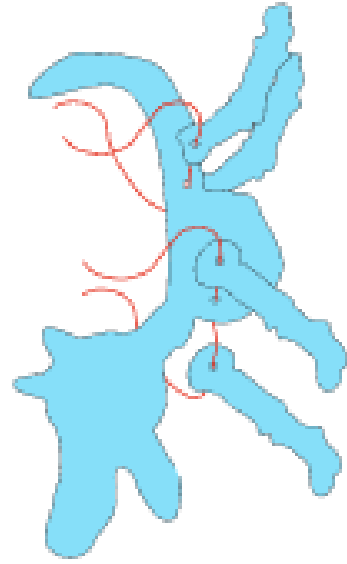

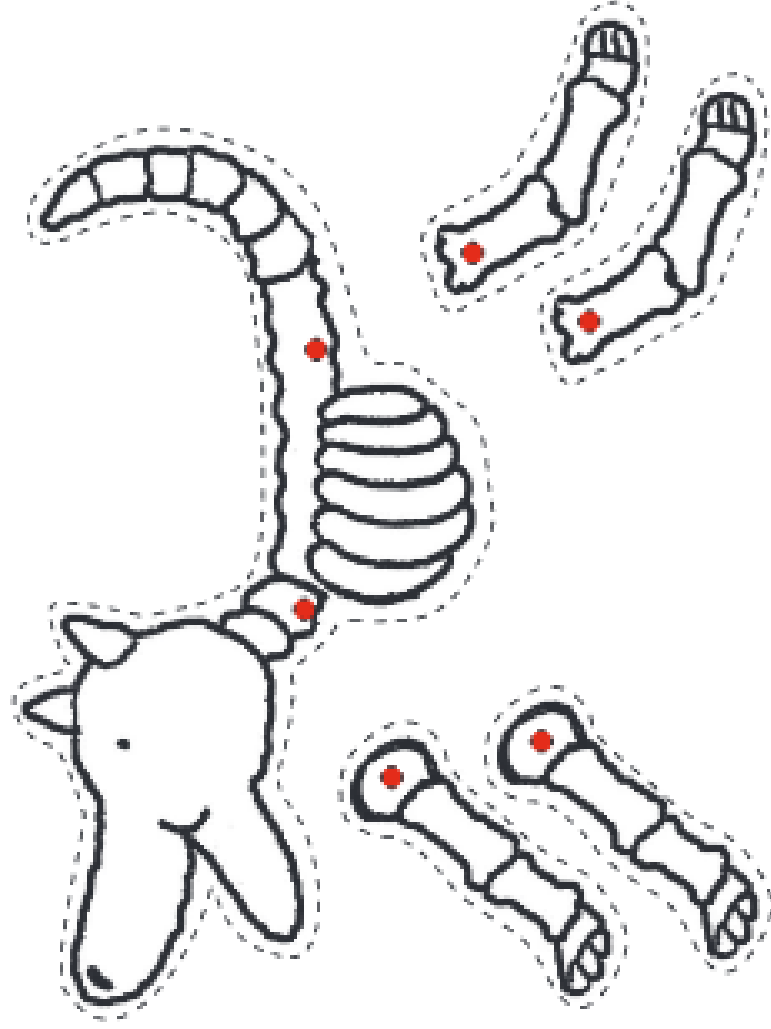

Draw a skeleton

Try drawing your own big skeleton.
Use the grid to work out where all his bones are meant to be.

Make a moving dog skeleton

For this you will need scissors, a pencil, some string and a straw.

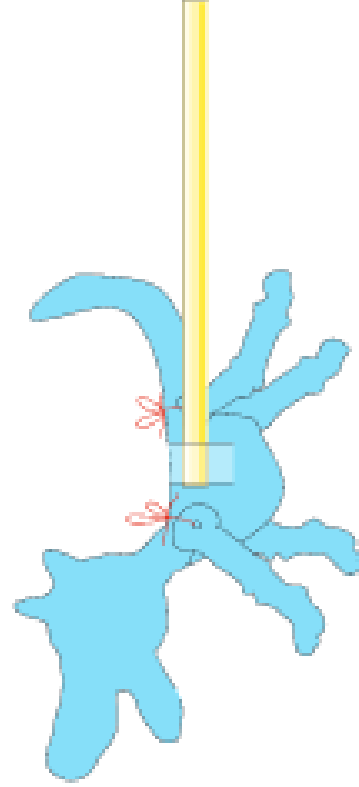

Ask an adult to help you cut around the dotted lines of the dog skeleton.

Push your pencil through the little red dots to make small holes.

Attach the front and back legs to the body of the dog skeleton by pushing a piece of string through the holes you have made. Tie a bow at the top of each to fasten.

Using sticky tape, stick your straw to the back of its body.

Now you can take your dog skeleton for a walk.

Picture story

Read this page from *Funnybones* aloud.
Why not point to each of the places that it talks about in order?

On a dark dark hill
there was a dark dark town.
In the dark dark town
there was a dark dark street.
In the dark dark street
there was a dark dark house.
In the dark dark house
there was a dark dark staircase.
Down the dark dark staircase
there was a dark dark cellar.
And in the dark dark cellar . . .
. . . some skeletons lived.

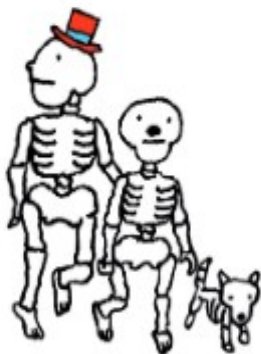

On your way to school

In *Funnybones* the skeletons go on a long walk during the night and see lots of different places.

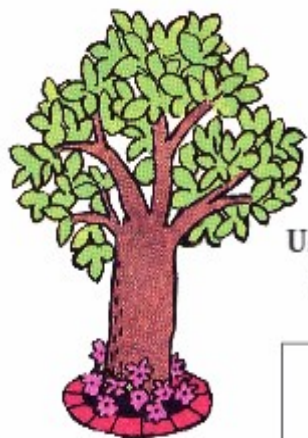

On your way to school, what do you see? Tick the places you pass.

factory

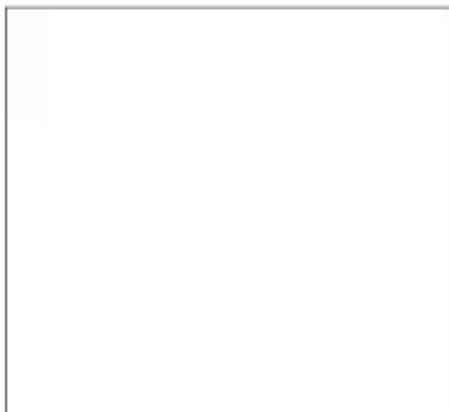

tree

Use this space to draw something you might see on your way to school.
